Example For 'Made in America'

As the co-founder of Bring our Jobs Home, President Donald Trump was elected for one reason and one reason only – to bring back some of the millions of manufacturing and call center jobs lost by outsourcing over the past 25 years. Trump campaigned on the issue, which attracted many corporations make billions in profits. By spending billions on programs and services while working on – calling out companies that outsource their jobs overseas and then sell their products back in the USA. That model doesn’t work; we need a political revolution in Yonkers. Examine and define the same thing over and over again is insanity. This year is our opportunity to take back our government.

St. Joseph’s Medical Center Earns Gold Award for Care

St. Joseph’s Medical Center of Yonkers has received the American Stroke Association’s “Get With The Guidelines-Stroke” Gold Plus Quality Achievement Award, which recognizes the hospital’s commitment and success in ensuring stroke patients receive the most appropriate treatment according to nationally recognized, research-based guidelines based on the latest scientific evidence. To receive the Gold Plus Quality Achievement Award, hospitals must achieve 85 percent or higher adherence to all Get With The Guidelines-Stroke achievement indicators for two or more consecutive 12-month periods and achieve 75 percent or higher compliance with five of eight Get With The Guidelines-Stroke quality measures.

These quality measures are designed to help hospital teams provide the most up-to-date, evidence-based guidelines with the goal of speeding recovery and reducing death and disability for stroke patients. They focus on appropriate use of guideline-based care for stroke patients, including aggressive use of medications such as skin heating and anti-clotting drugs, blood thinner and cholesterol-reducing drugs, preventive action for deep vein thrombosis, and smoking cessation counseling.

First Family Must Lead by Example For ‘Made in America’

I was both happy and looking forward to our new president. Trump was the only candidate talking about an issue that I have spent the past 12 years working on – calling out companies that outsource their jobs overseas and then sell their products back in the USA. That model doesn’t work; we need a political revolution in Yonkers. Examine and define the same thing over and over again is insanity. This year is our opportunity to take back our government.

Vista at Untermyer Gardens Restored

Mayor Mike Spano recently joined the Untermyer Gardens Conservancy to dedicate the restoration of The Vista at Untermyer Gardens. Assemblywoman Shelley Mayer, Councilman Michael Sabatino and Parks Commissioner Anthony Landi were also in attendance, as were members of the Conservancy Board, docents, Yonkers Historical Society Board members and various out-of-town guests.
On behalf of the conservancy, President Stephen Byrns described how the Vista was based on the Villa d’Este on Lake Como in Italy, which Samuel Untermyer had admired. It is considered the most monumental garden feature in America. He also saluted head gardener Timothy Tipton and the six other gardeners for their hard work. Restoration work included massive replanting, installing new pavers and handrails, masonry restoration, drainage improvements and safety upgrades.
Spano commended the work of the conservancy, which has raised millions of dollars and worked in a public-private partnership with the city since 2011 to restore the gardens, and presented a proclamation to the conservancy for its superb work.

Legislator Tubiolo Produces Senior Summer Show Continues Spreckman’s Legacy

By Eric W. Schoen

If you, I have been watching campaigns and women and men as they return to their districts from Washington Heaven. Scared because, at Town Hall meetings. Folks are old because they have lost the race. Then, the Trump, the Obamacare, and my knowledge has not scheduled a clear Town Hall meeting to face fact. Not even his constituents would be unhappy with his position, on the issues. They want to see him off the side of the Street at the worst moment, the president and happy for the time they don’t take his annual “Senior Summer Show” for granted.

I want to go to one of those shows and see what it is all about. Some have been a report on television, radio and in a panel. So far, my investigation is clear. I am pleased to see that the show is scheduled again this year and the future summer shows to follow. And there are a few who have been a hit to the show. I am pleased to see the show perform its 30th year, as well as my successor David Tubiolo continuing my legacy of senior advocacy in all aspects, keeping seniors active, happy, healthy and socially, thus preventing ‘senior isolation.’

David Tubiolo was the artistic director, Noel Hart was the music director; Barbara Gallis was a choreographer, Lina Danzali was the narrator, Matt Rodriguez was the stage manager, and David Tubiolo and Bernice Spreckman were both producers. The “way to keep an older person is to keep moving,” and it’s much more fun to move while you dance,” said Ayriss. “Our group becomes like a theatre family, working together and supporting each other.”

It’s always a delightful afternoon, sessions once again prove they still have it, in terms of entertaining each other, putting together a fantasy show, and it’s enjoyable for all ages,” added Carpenter.

Senior isolation is prevalent due to the fact that the number of one third more than one third of all seniors cited loneliness. Some do not have the financial means to maintain a social life, others have no choice but to remain homebound, unhealthy behaviors, depression and elder abuse, and cause other detrimental consequences.

Because it connects three New York boroughs. Both make sense.

If anyone should have that name on a bridge, they should have the name of the famous Brooklyn, which connects New York City to New Jersey. The bridge also is so named because it crosses over the Raritan River, which is the Tappan Zee so named, or maybe the Tappan Zee is named after that river, which it makes no sense.

There is no guarantee that just out-and-out removing a bridge for his own family without public opinion. Maybe, you, the tax payers, are the ones that will make it or break it.

Respectfully, Carolyn Dietmosek of Yonkers.

The poll found that nearly 90 percent of respondents are in favor of the deal cut between the governor and the Tappan Zee Bridge under Mario Cuomo.

"The rush to name the New Tappan Zee Bridge after the governor's father has left a bad taste in the mouth of voters in at least two state districts. For more information, call the empire city casino at 914-745-3000.

Yonkers Downtown Development Boom

The renaissance and redevelopment of downtown Yonkers continues, as more and more interest in building and creating a vibrant downtown keeps coming. Developers and younger New Yorkers are finding out the benefits of living in Yonkers and commuting to New York City.

This week, members of Yonkers Downtown BID joined Mayor Mike Spano and city officials to unveil its new branding and website. With the goals to improve downtown, as well as provide updates on the strides made with river cleanup to the downtown.

"It’s a true collaboration," said Spano. "It’s important news taking place.

"Our partnership with Yonkers Downtown BID is a true collaboration," said Spano. "It’s remarkable to see the development taking place—\[we\] are attracting more young professionals to live and work here and we look forward to what’s ahead."

The anchor of the new downtown and what Spano likes to call the “gamer changer” is RXR-Rising Development’s block-long project along the banks of the Saw Mill River—Van der Donck Park. Construction is underway and buildings are “rising” at the properties, which will feature residential and retail occupancies along the river and around Warburton Avenue to Main Street.

Another new project popping up along the Hudson River is part of Hudson Park’s successful apartment complex. Hudson Park was one of the first companies to come to downtown Yonkers and invest in the city.

"Another new project popping up along the Hudson are incredible residential buildings just north of the Domino Sugar Factory and just south of the Scrimshaw House apartments. These properties, also known as parcels H and I, have long been considered for development and are now underway.

At Chicken Island in Getty Square, two projects are under construction simultaneously. Phase three of the Saw Mill River Daylighting Project is underway at the corner of New Main Street and Nepperhan Avenue. The Saw Mill River has been opened at the site (see photo) and water is flowing into the third location in the city, as the long-buried river helps Yonkers become an ecological leader while at the same time providing another new, open green public space and gateway to the Yonkers shopping district.
