Should Water Districts Also Live Under Tax Cap?  

Colavita Calls Water Rate Increase ‘Ludicrous’

By Dan Murphy  

Ethan Town Supervisor Anthony S. Colavita has imposed his ongoing feud with United Water New Ro-  
hampton, which provides water for 110,000 residents in the West-  
chester communities of New  
rochester, Green-  
brae, Bowaine, Tuckahoe, Pelham, Pelham Manor, Aud-  
croft-on-Hudson and Dobbs Ferry.  

Colavita and County Legis-  
lator Sheila Marcotte have led  
by expanding SCRIE and EPIC eligibility. I’m  
and protected our middle-class senior citizens  
this state. We delivered $300 million for full-day  
gets, froze property taxes and generated jobs in  
“Together, we passed four historic on-time bud-  

colors, he has used his  
support to a seasoned pub-

Parkway to the 40th Senate District, which inexpected.

Zephyr Teachout, the Democratic challenger other than their own and continue to do so into adulthood. Mother's milk is essential to initial development and should be replenished with other foods once this development is complete. We do not feed babies' cows' milk because high protein, sodium and potassium contents is designed to develop an infant into a 1.5-lb./100-oz baby. Breast milk, however, provides vitamin E, iron and essential fatty acids required for optimal brain development, according to the American Academy of Pediatrics. Even though 50 million Americans are lact- ing breast milk and cannot digest the sugar in dairy products, Americans over the age nine of milk are advised by the Department of Agricult- ure to drink three cups of milk daily. Most par- ents and children do not adhere to this age of two, likely because milk is no longer required for development. The dairy industry tells consumers its milk and its prod- ucts as uniquely providing calcium, protein, vitamin D, and although these nutrients can be found in many other foods. In fact, one cup of black beans contains similar or higher amounts of these same nutrients. Industry sponsored studies are also misleading because milk contains so little vitamin D so naturally with fortified milk.

Pataki is hoping to get out progressive port ethics reform and getting corruption out of

Chorale Seeks New Members For Upcoming 2014-15 Season

The Chorale's upcoming 2014-15 season will begin Monday, Sept. 8, 6 to 7:30 p.m. at the Pleasantville Presbyterian Church. The event will take place prior to rehearsal Monday, Sept. 15, 6 to 8 p.m. at St. Luke's Episcopal Church in Chappaqua. For more information, visit www.simon.com/Chorale.

Paula is a prolific contemporary American composer who writes in a wide range of musical genres. His works have received thousands of performances and recordings, and he has garnered high marks from music critics of The New York Times, Opera News and other publications. His music has been performed by many of the leading ensembles and ensembles in America and abroad.

New members are welcome in the month of September, and singers who already belong to other choruses are also invited to consider the Chorale. For more information, visit www.simon.com/Chorale.

Historic Digital Archives

World's first leg to go out in 2014 to see how the people and places of Westchester County have evolved. Thanks to the Westchester County Archives, you can now see the full story of the county's history.

Time of thousands of easily searchable records, photographs and documents dating all the way back to 1843 – are available for the first time. These resources can also be used as a research assistant, or for finding fun and interesting historical updates. Select digits depict the most accurate high-resolution images available.

WNYC's American Chronicles is a New York Times best-selling series of books that narrates America's story. Now, you can read it online – all from the comfort of your home.

Dear Editor:

Two-state solution and respecting the rights of Palestinian people to self-determination is the only solution to lasting peace in the Middle East.

The underlying problem is that the rate increase is simply a reflection of the company's inability to adequately fund its own maintenance and repair needs. It is an attempt to shift the burden of its own inefficiencies and mismanagement onto ratepayers. The company has never been held accountable for its actions.

We must ensure that our local government, the Town of Eastchester, stands up to United States Insurance. The residents of Eastchester have paid too much for their water and hydrants – but the company has never been held accountable for its actions.

On behalf of the 32,000 residents of Eastchester, I implore you to protect the ratepayers from United States Insurance.

Marcy Kasten
Chairman
Eastchester Board of Education

The U.S. Government and your State have financial incentives that may provide homeowners the opportunity to supplement your electric provider with solar power.

Dear Editor:

We are honored to support the home solar industry and the growing movement for clean energy and environmental stewardship. As your community looks to the future, the time is right for rooftop solar to power homes, businesses, and schools.

In New York State, homeowners and businesses can take advantage of a variety of incentives, including tax credits, rebates, and low-interest financing options, to make the transition to solar power. These incentives make solar power more affordable than ever before.

We urge you to consider the benefits of solar power for your community and your home. By installing solar panels, you can reduce your carbon footprint, save money on your energy bills, and contribute to a more sustainable future.

Thank you for your time and consideration.

Sincerely,

**Seniors and Health Care**

**News 12 Launches Hyper-Local Traffic & Weather Mobile Apps**

News 12 Networks recently announced the launch of new stand-alone traffic and weather apps for iPhone and iPad. iPhone and iPad applications that will provide viewers with quick access to traffic information they need and want, while on the go. Designed to complement News 12 Network's traffic and weather apps are easy to read and fully loadable with information and graphics. The iPhone and iPad apps are available for download from the iTunes App store and are free to Optimum customers and other cable subscribers who receive News 12.

"These apps, users can access the traffic and weather information with a single tap," said News 12 Networks President Patrick Lobato. "This app's movement is simple, it's simple, and it's accurate - and it comes with the trust of the News 12 brand."

The News 12 weather app provides the latest local weather information and updates from the award-winning and recognized meteorology team. Users can get custom information for their homes, as well as live radar images, the latest News 12 video weathercast, a 10-day forecast and more.

News 12 Traffic and Weather app offers up-to-the-minute local traffic information and color-coded maps. Users can also verify travel times by entering start and stop locations such as home, work or even one-time destinations. Additionally, access to hundreds of traffic cameras across the region provides a live look at road conditions and traffic patterns.

Both apps offer access to the main News 12 Networks app, as well as a live stream of the local News 12 Networks channel and the News 12 Traffic and Weather channel.

"With these new apps, users can access all the traffic and weather information they need - anywhere in the tri-state area - with just one simple tap," said David Kirschen, general manager of News 12 Interactive. "And with the launch of News 12 Traffic and Weather, the full experience of what’s happening across the tri-state area is available in a dynamic and compelling way."

Kathy Myers was Head of Richmond Community Services for many years, which provides a wide range of services to support persons with developmental disabilities reach their full potential. Spano served in the State Assembly from 1966-1974 and has been a long-time supporter of the Richmond, and has been a member of the Board of Directors of Richmond. His internships, residencies, and fellowships at Columbia Presbyterian Hospital in the early 1980s, where for several years he headed the committee for abandoned babies with developmental disabilities in her home. Today, Richmond serves approximately 250 individuals and families in community residences, day programs in Mount Kisco and Yonkers, and residential senior centers, and takes at least one year for applications to see Richmond’s role as a leader in helping adults with developmental disabilities reach their full potential.

Spano served in the State Assembly from 1977 to 1986, and the Senate from 1987 to 2006, where for several years he headed the committee charged with overseeing services for people with developmental disabilities. He was a champion of the state’s efforts to ensure flexible institutional settings and move people out of institutional settings and into community-based residences. Spano fought successfully to reduce medicaid allocation for landfill facilities services for people with mental health issues.

In addition to her husband, Kathy was preceded by her eldest child, Lain Jr., her brother and her sister. Her legacy will be carried on by her children: Anne Evans and husband Fred, of Hanover, N.H., Duncan Myers and wife Michelle of Topsham, Calif., and Sara Garrick and husband John of New York, Va. Kathy was an avid reader, usually having several books and magazines going at once. She was an early riser and loved nothing better than watching the sunrise from her kitchen retreat in New York with a dog or two, and sometimes a cat by her side. There was rarely a time in her life that she was without at least one pet.

Norah Myres was Head of Richmond Community Services for many years, which provides a wide range of services to support persons with developmental disabilities reach their full potential.

Spano served in the State Assembly from 1966-1974 and has been a long-time supporter of the Richmond, and has been a member of the Board of Directors of Richmond. His internships, residencies, and fellowships at Columbia Presbyterian Hospital in the early 1980s, where for several years he headed the committee for abandoned babies with developmental disabilities in her home. Today, Richmond serves approximately 250 individuals and families in community residences, day programs in Mount Kisco and Yonkers, and residential senior centers, and takes at least one year for applications to see Richmond’s role as a leader in helping adults with developmental disabilities reach their full potential.

Spano served in the State Assembly from 1977 to 1986, and the Senate from 1987 to 2006, where for several years he headed the committee charged with overseeing services for people with developmental disabilities. He was a champion of the state’s efforts to ensure flexible institutional settings and move people out of institutional settings and into community-based residences. Spano fought successfully to reduce medicaid allocation for landfill facilities services for people with mental health issues.
