Santa's Still Working Hard in Yonkers

By Dan Murphy

With less than two weeks before Christmas, Santa Claus is making the final push to unload all of the tree lightings, luminaries and events that can be in the Big City of Yonkers.

Recent Santa sightings include a breakfast with Santa and Yonkers students, and a visit to the Yonkers Animal Shelter to take pictures with dogs and cats. Santa was also seen on Central Park Avenue on a motorcycle, apparently because he wanted to give the reindeer a rest and get around Yonkers without them.

There is never a good time to find out that you have to leave your home, but perhaps the worst time of all could be in the winter and around the holiday season. Unfortunately, residents who live at 254, 256 and 258 New Main St. received bad news when a boiler for the three buildings stopped working, resulting in all three buildings getting temporarily condemned by the Yonkers Building Department.

I cried because I had no shoes...

...and a man who had no feet had compassion on me.

—Helen Keller

That famous line comes to mind as I continue my journey to good health with a full left knee replacement I underwent two weeks ago. Yes, there were a few nerve-revealing complications that kept me in the emergency room for close to four hours. Yes, I am currently home with an annoying brace covering my leg, an arrangement that will not allow me to move my leg more than 60 degrees. But I’m lucky – I have two feet. In rehab, I face people with prosthetic legs and some who have lost legs that were not functioning. I might be in a little pain or immobility right now, but in several weeks, I will be running around the neighborhood – or at least walking around the supermarket selecting healthy foods to eat.

I look forward to creative ways to use the annoying brace and found that I could display holiday cards on it. Perfect grooves in the brace allow holiday cards to be small upright, keeping my spirits bright. Pictures of my friends with their families cheer me up. One friend’s card has pictures with him posing with Sting to Arian Grande to Jennifer Lopez and more. The card gives me inspiration, knowing that upon my recovery I will have the opportunity to see these more closely in person.

I said goodbye and I will say again. We don’t realize how fortunate we are to have great hospitals in Westchester. My surgery was done at St. John’s Dobbs Ferry Orthopedic Hospital (the old Dobbs Ferry Hospital), where doctors do great work. Friendly people greet you from the minute you enter the hospital door through your stay. Nurses and aides who care about you right from the start.)

When local law enforcement officers got involved in the incident, the suspect had his own personal gun, which was either located in the suspect’s vehicle or in his home. The suspect’s vehicle was located near the location of the shooting.

In a touching family tradition, the Maldonados spend the eight nights of Hanukkah lighting a menorah at their home on Nepperhan Avenue. This year, they dedicated the menorah to their late son, Jonathan Maldonado, who was killed on Nov. 29, 2017 while in custody of Yonkers police.

His death is under review, and the family has filed a wrongful death lawsuit. Friends and family of Jonathan gathered for his 23rd birthday last week at Fleming Field and at Mt. Hope Cemetery. Maldonado’s uncle, City Council President Mike Khader said, “Losing Jonathan was the hardest thing our family has ever dealt with. My nephew had dreams, which he will now never be able to accomplish. I pray that my sister Nancy finds strength during this difficult time, and that everyone keep her and our family in their prayers.”

Jonathan Maldonado, a teacher aide in the Yonkers Public schools, was killed Nov. 29, 2017 in Yonkers while in custody of Yonkers police. The circumstances surrounding his death are under review, and the family has filed a wrongful death lawsuit.

Also last week, Hurwitz led his congregation in lighting a 12-foot menorah at the Temple of Love in Yonkers’ Undermyer Gardens, overlooking the setting sun over the Hudson River, on the eighth night of Hanukkah, Dec. 9. However, we preferred to spell the many different names of the Hanukkah holiday, Hurwitz had many who volunteered to climb the ladder to light the Hanukkah candles and to spread the light. Singing Maor Tzur and other traditional Hanukkah tunes, all enjoyed a large variety of jelly and chocolate donuts.

The lighting was also dedicated in memory of Marty Rochelle, known as “Mr. Parks,” who will always be remembered for his love and concern for his fellow Yonkers residents, and for his wife, family, children, and his many friends. Marty served in the United States Air Force, created a network of bail bond companies, served as Yonkers city manager before the advent of a city mayor, and was chairman of the Yonkers Parks, Recreation and Conservation Department and also the Westchester County Parks Recreation and Conservation Board. Members of Marty’s family lit several of the Hanukkah lamps on the eighth night, joining members of Chabad of Yonkers, also known as the Greystone Jewish Center, in ascending to spread the light and joy of Hanukkah.

Santa's Still

One new addition to all of the holiday
